

I request that you do not allow the LPFM stations to have priority over FM translator services. KLOVE is part of our local community and is an intricate part of raising our children in a Christian environment. We, the KLOVE supporters, financially support the station so that we have a radio station that we can entrust to our children without worrying about what they might hear that is inappropriate for their age. We also feel that KLOVE is a way to reach non-Christians through music that is positive and encouraging which is good for the entire community. K-LOVE is part of our community, it would be unjust for the people who financially support the station to lose the signal due to the FCC, and it is in the public interest to keep K-LOVE's signal alive.
